[90 Day Resp Ltr - rodenticides - SRRD, 6-18-2008, 1 DBP edit, 7-1-2008.doc](#)

Dear Laura,

Thank you for sharing with me SRRD's June 18, 2008, letter to the rodenticide registrants. I read over it and had but one comment, which I annotated to the document and included here for convenience:

I had not seen this text previously. To be consistent with pp 11-12 of the Final Rodenticide Risk Mitigation Decision, I would have preferred the text on p4 of SRRD's 6-18-2008 Letter to read:

"bait in a solid form (block form and possibly paste form if shown to meet safety goal but no meal, pellet, whole-grain, or liquid forms),"

By using only the term 'solid form', some registrants may mistakenly think that other "solid" forms like "meal, pellet, and whole-grain" are now acceptable.

If questioned, we could say that we should have included the text in the parentheses above."

Laura,

Can you send me the final version of the clarifying language for the 90 Day Response and an estimate of the mailing date of DCI cover letter to registrants?
